An Unusually Hot Wave.-The hot wave which passed over a good share of this country the past week did not skip St. Johnsbury and the mercury reached its highest notch Monday afternoon, though the succeeding days were almost as hot. In some parts of this village the temperature was somewhat higher. At stores and offices the mercury ranged from 90 to 93 and in some of the upper rooms at the scale factory it was 102. BOLD BURGLARY. Safe in George Shorey's Grain Store at Lyndon

The safe of George Shorey, grain merchant at Lyndonville, was broken into about 8.30 or 9 o'clock Tuesday morning and about \$120 in money and \$70 in checks stolen. Mr. Shorey and his son Erton, who works in the store, were making that morning frequent trips from the store to the new grist mill in course of construction near by. The door of the safe was left unlocked, but the drawer that contained the money checks, etc., was locked. While Mr. Shorey and his son were both absent from the store, some one quickly entered, broke open the drawer with a small screw driver and chisel, took the wallet containing the above amount of money and checks and disappeared. The alarm of burglary was at once given, and search for the thief commenced. Subsequent developments show pretty clearly that the mulatto arrested here Wednesday atternoon, and who gave his name as Scott, is the culprit. His trip from Lyndonville to Passumpsic and back to St. Johnsbury can be easily treed. After committing the burglary he started down the track, met Dr. Carter of Lyndon Centre and rode as far as Lyndon Corner with him. From the Corner he started on foot towards St. Johnsbury. Several noticed him there and can recognize him if necessary. Near the electric light station he was noticed by Daniels and Sargent, in charge there, and they thought that he acted as it something was wrong. Scott kept on to Passumpsic, evidently intending to take the Air Line from there and get out of this section. Finding out that the Air Line did not stop there he started back to St. Johnsbury, riding up as far as the dry bridge with Mike Murphy. When he got into Murphy's team he dropped something. Murphy called his attention to it and Scott said it was a tool, that he was going after more and would pick that up on his return, as he was doing ing by the electric station that morning. larger towns of the state: About 2 o'clock a man was seen skulking around the shoe factory, was recognized and given chase by Sheriff Sulloway and Charles West. Scott ran up an alley between the buildings on Railroad street and finally brought up back of the French bakery, where, not being able to find a way out, he was cornered and handcuffed. During the pursuit he became a trifle violent, throwing an axe at West and also attempting to club

Rev. Fr. Carmody, pastor of St. Rose Catholic church, was the next speaker. He said he was glad to meet the others on a common platform to consider the subject of American patriotism. While there were many nationalities and many creeds in St. Johnsbury, all were Americans and all were striving for the best interests of the government.
